REASONS FOR ALLOWANCE

The amendment filed under 37 CFR 1.116 on October 7, 2005 has been entered. Claims 64 and 69 have been amended and claims 65 and 70 have been cancelled.

Claims 1-4, 6-15, 19-22, 25-32, 50-64, 66-69 and 71 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record shows or suggests a shift and brake control device including a brake lever bracket, a brake lever and an electrical shift control switch arranged together in the manner set forth in claim 1, and particularly wherein the electrical shift control switch is fixedly mounted to the brake lever and has an operating member configured to rotate relative to the brake lever about a pivot axis that is stationary relative to the brake lever and substantially parallel to the brake operating plane.

Nor does the prior art of record show or suggest a shift and brake control device including a brake lever bracket, a brake lever and an electrical shift control switch arranged together in the manner set forth in claims 13, 62, 63, 64 and 69, and particularly wherein the electrical shift control switch is fixedly mounted to the brake lever and has an operating member configured to rotate relative to the brake lever about a pivot axis that is not perpendicular to the brake operating plane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
